What Our Full-Service Warranty Program Offers:

■ Scheduled Maintenance

We handle all routine maintenance based on manufacturer guidelines and industry expertise. Every visit is customized to your system, ensuring smooth and efficient operation.

■ 24/7 Emergency Support

Day or night, we've got you covered. Whether onsite or remote, our team is ready to respond and quickly resolve any control system issues.

■ Energy Solutions Consulting Services

Our specialists work closely with your team to analyze system performance, energy use, and occupancy patterns, providing recommendations to improve comfort and efficiency.

■ Unlimited COMPLIMENTARY Onsite Training

We offer free, customizable training sessions at your convenience—half-day, full-day, or even computer-based options—so your team can stay confident in managing your systems.

■ Automatic Software Upgrades

Stay up-to-date with the latest WebCTRL enhancements. Our subscription service ensures your software is always current and fully compatible with your system.

■ Complete Repair Coverage

"If it breaks, we fix it." Our program covers all repairs and replacements for your Building Energy Management equipment at no extra cost, including on-site labor and travel expenses.

■ Energy Solutions & Support

Get access to our Certified Energy Managers for free consultations on energy consumption, savings strategies, and power bill analysis.

■ Discounts on Parts & Software

Enjoy a 35% discount on parts and special pricing on our custom KW Metering Software, helping you monitor and optimize long-term energy savings.

■ Free Re-connections for HVAC Replacements

We'll handle all control disconnections and reconnections, free of charge, when you replace old HVAC units and the reconnection is wire for wire to the existing module. Plus, we conduct point-to-point checks to keep repair costs and energy use low.
