

HARRIS Integrated Solutions

Reduce Energy Use While Keeping Your School Building Comfortable

The Energy Solutions Program (ESP) is a 3-tier strategy designed to help you reduce energy use while maintaining comfort for students, staff and visitors.

With ESP, you can make a *positive impact* on the environment and *save money* on energy bills to stay within your school district's budget.

TECHNOLOGY

1

With WebCTRL, you can **easily monitor** and adjust each school building's energy usage and **maximize comfort**.

TRACKING

2

With Energy Star's Portfolio Manager, you can **track and compare** each school building's energy usage with **other similar buildings**.

COMMUNICATION

3

EnergyIQ Reports provides you with an **in-depth view** of each building's energy usage and performance to help **identify areas of inefficiency**.

Interested in reducing energy usage while maintaining a comfortable environment for your school district?
